528Hz | The **Love** Frequency

"528 Hz", also known as the "Love Frequency", is also proven to have a positive effects on the health of cells and DNA while increasing Positive Energy, Self Confidence and Self Esteem.

Water is proven to have "memory" and can store positive and negative emotions, frequencies and intentions which can then be transferred into our bodies through the water we drink.

V3 Technologies erase "Old Memories" and then re-program "528 Hz" into every bottle.

528 Hz Infused in every bottle of V3 Water

V3 Waters are Structured and **Magnetized**

"The magnetized water increases the solubility of minerals and therefore improves the transfer of nutrients to all parts of the body, making the organisms work more efficiently."

Helps Prevent Aging And Fatigue

Improves Metabolic Activity

Helps Normalize Circulatory Systems

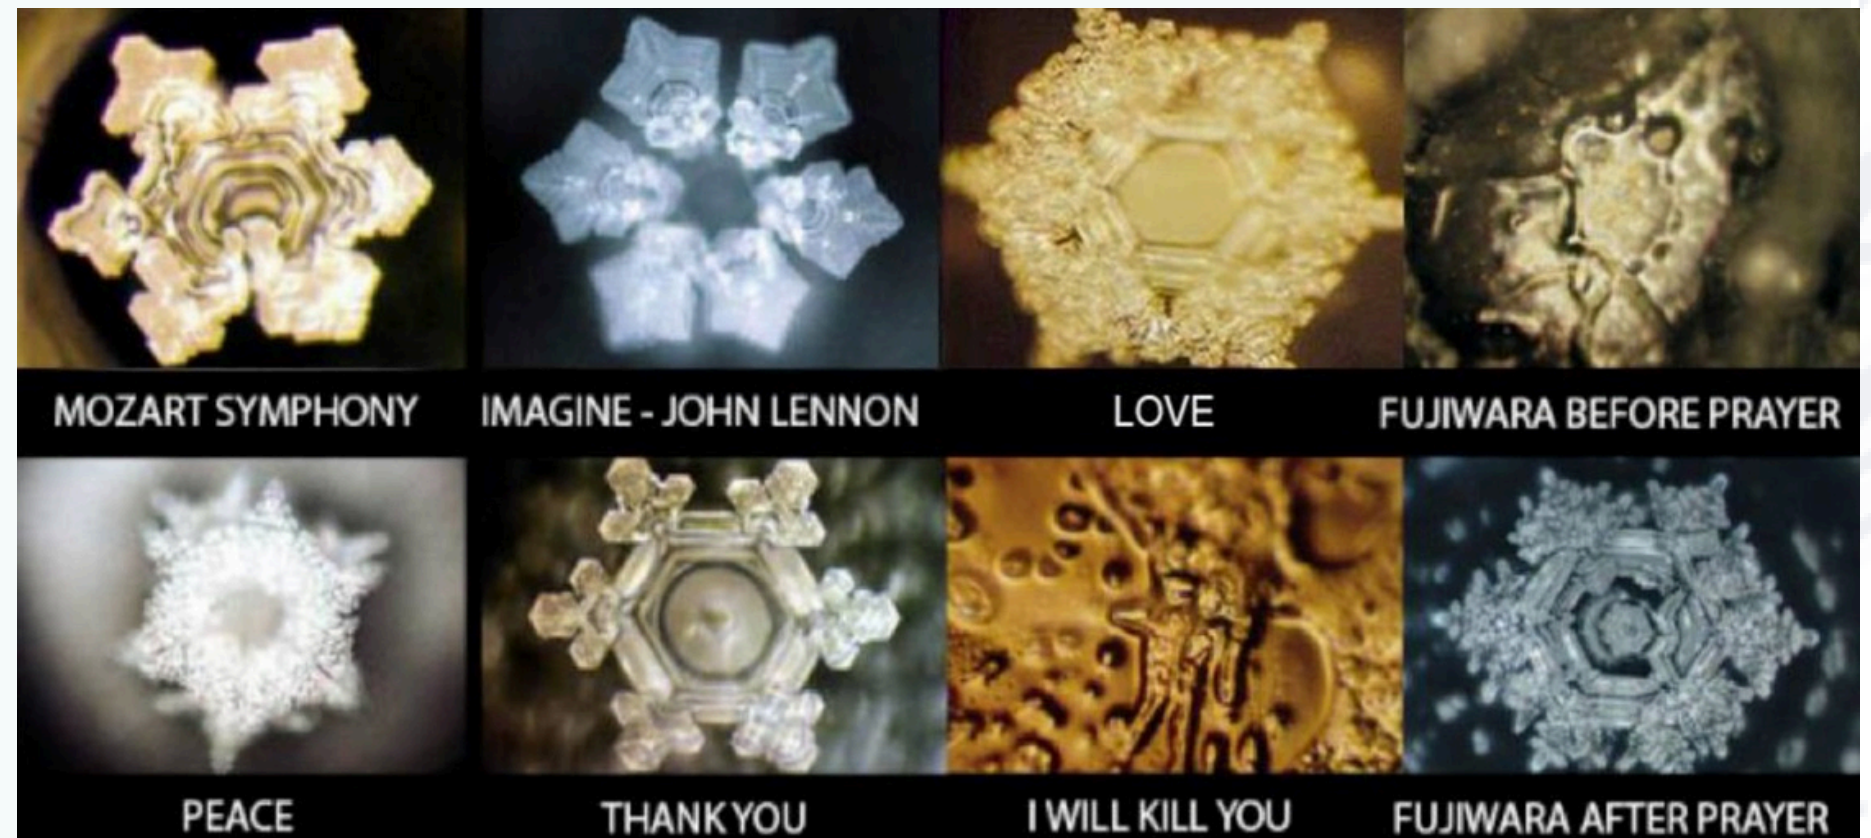

PRINTED ON ALL V3 WATER LABELS

Love - Joy - Peace - Gratitude

"Water exposed to positive words,
formed beautiful crystals."

"Water exposed to negative words
formed fragmented crystals."

- Dr. Masaru Emoto
